Time: 12:00 PM EST (High Noon)

Location: Steps of the U.S. Department of Justice, Washington, D.C.

### **THE RECKONING BEGINS IN WASHINGTON**

#### **THE PEOPLE ANNOUNCE THE RESTORATION OF THE REPUBLIC**

WASHINGTON, D.C. — On Tuesday, May 6th at High Noon, history will be made on the steps of the U.S. Department of Justice as American-Made Action formally announces the launch of the largest lawful movement in modern history — one backed by over 1,000 attorneys, retired judges, and millions of citizens who have had enough of the lawlessness, corruption, and government abuse of power.

This is not a protest.

This is a declaration.

A declaration that We the People are taking our rightful place as the sovereign power in this nation.

For the first time in world history, the People have organized a united front of legal minds, forming the United Law Coalition, to begin the lawful dismantling of unconstitutional government systems. Joining them is the official launch of D.O.G.A. — The Department of Government Accountability, a watchdog force that will expose, escalate, and pursue lawful justice against rogue actors at every level of government.

“We have been quietly organizing for seven months, and now we are going loud. The People are done asking. We are reclaiming the Constitutional Republic — with law in one hand and accountability in the other.”

— Maureen Steele, co-founder of American-Made Action

# DEPARTMENT OF GOVERNMENT ACCOUNTABILITY

---

The media is invited.

All press will have access to ask direct questions, receive action items, and hear the step-by-step roadmap for how the People will restore self-governance — and how every American can participate.

This will be the official launch of:

- The United Law Coalition
- The Department of Government Accountability (D.O.G.A.)
- The Second American Revolution — Lawful, Peaceful, Unstoppable

“You cannot fight a war unless you understand the battlefield. That’s what this movement is — the coordination of every truth-teller, every fighter, every legal mind, and every God-fearing American who refuses to be ruled by cowards and criminals.”

— Ann Vandersteel, co-founder American Made Action

This is a strategic reclamation effort. Every group that has been fighting in the trenches — from CPS reform to constitutional law, from election integrity to medical freedom — is welcome to link arms and move in unison.

This is not about taking over anyone’s charter — it’s about mobilizing the chessboard for the greatest pushback this country has ever seen.

“We’re not going away. We’re not backing down. And we will not take no for an answer. The people are in charge now — and the rogue government knows it.”

— Maureen Steele

For decades, Americans have been deliberately dumbed down — taught nothing of the Constitution, their rights, or how to run their own government. That ends now. This movement will not only demand accountability, it will educate the nation on how to take back control — lawfully, locally, and powerfully.

To every elected official who claims to be horrified by the radical left’s destruction:

This is your moment. Get on board — or be exposed as part of the swamp.

# DEPARTMENT OF GOVERNMENT ACCOUNTABILITY

---

We will not forget who stands with us. And we will certainly not forget who stood in our way.

This is the reckoning.

This is the rising.

This is the return of Republic

This is Game over.
